The background of the cover features a photograph of a large, ancient stone fortress or castle. The structure is made of grey stone and has several arched openings. On the right side, there is a prominent, tall, cylindrical tower with a pointed top, resembling a minaret. The sky is a pale, hazy blue. Overlaid on the entire image is a faint, light blue grid pattern that resembles a blueprint or architectural drawing.

DEDICATION

This book is dedicated to the glory of God.

I wrote this book for leaders. Leaders who have the right intentions but who may be stuck, tired, or weary from the grind of leading through difficult seasons or leaders who simply desire to grow while on their leadership journey. No matter which one applies to you, my prayer is that Nehemiah's leadership example encourages you and transforms your impact!

THE NEHEMIAH BLUEPRINT ASSESSMENT

If you desire to apply lessons learned in a deeper and more personalized way, a digital assessment complements this book. The QR code below and link will guide you to your complimentary assessment. The assessment will provide insights to help focus your efforts as you continue your leadership journey and should take less than 8 minutes to complete. Once you have completed your assessment, you will receive a digital report designed to help you tailor your leadership journey so you can overcome challenges, return to purpose, and build lasting impact.

ACKNOWLEDGEMENTS

God comes first, followed quickly by my family on the list of people I wish to express gratitude to. My wife Cynthia and our two boys were an incredible source of support and joy as I wrote this book. Without them, this book would not be in existence.

Many people supported me in writing this book. Christian Ophus, my publisher, provided much wisdom and guidance through a complex process. Janelle Keith provided early author coaching. My close friends and mentors, Mark, Mitch, Jess, Larry, and Art, read the book early on and provided transformational feedback.

Many other people helped to make this book what it is today, and several others also helped to refine the assessment. The list is certainly too vast to capture. You know who you are, and I am incredibly grateful for your support and encouragement along the way.

A Roadmap to Overcome Challenges, Return to Purpose and Build Lasting Impact...

Most faith-focused leaders set out in their careers with great intentions to help others and courageously work to provide lasting solutions in a world in need. However, the challenges that today's leaders face have created an environment of immense pressure. Challenges that are almost unfathomable. Problems that seem borderline unsolvable. It seems inevitable that at some point, leaders feel burnt, bent, broken, and even uprooted as they endure an environment of constant adversity.

Although our modern-day problems may seem unique, we can look to history and discover that the answers may be right in front of us. One such example is the story of Nehemiah, found in the Old Testament of the Bible. A powerful story of insurmountable challenges, where one man took action and changed the course of history.

Nehemiah's leadership example provides a tremendous roadmap for today's leaders. The Nehemiah Blueprint unpacks 8 attributes that Nehemiah portrayed that fueled his leadership:

**Passion & Calling | Courage | Wisdom & Discernment | Preparation
Humility | Vision | Action | Perseverance**

If you're looking for a tangible roadmap to overcome challenges, return to purpose, and build lasting impact, The Nehemiah Blueprint provides a compelling case and relevant suggestions for you to lead well no matter what season you are in.
